

E5055A, E5056A, E5057A, E5058A SSA-X SIGNAL SOURCE ANALYZER

DEAL IN BRIEF

Trade in your eligible Keysight or Rohde & Schwarz signal source analyzer and receive a credit up to 40% toward the purchase of a new SSA-X Signal Source Analyzer.

Keysight's family of benchtop phase noise analyzers provides best-in-class phase noise performance and versatile capabilities, such as residual measurement, pulsed measurement, clean DC source, spectrum analysis and network analysis. The SSA-X family of analyzers provides residual phase noise measurements up to 54 GHz using the industry's first built-in clean signal source without adding any external equipment.

Credit values are based on *typical configuration and average list price* and apply to models with *matching frequency range* (and port or channel count where applicable).

TRADE-IN MODEL	CREDIT UP TO

TERMS AND CONDITIONS

- Trade-In credits for this special promotion may be subject to change without notice, at Keysight's discretion.
- Credit ranges apply to Trade-In models with matching or similar frequency range and port / channel count.
- The Trade-In unit(s) must be in working condition, without major esthetic and physical damages, to receive the full credit.
- Credits apply to the new Keysight product and hardware options included in the offer; not to Keysight software or hardware items bought with the same order but with a separate model number.
- Credit values are approximate and may vary by currency and country, for one new and one Trade-In unit, and may change any time without prior notice.
- The Trade-In credit and purchase agreement (PA) discounts may be combinable.
