

SG6311A

PSG SIGNAL GENERATOR

DEAL IN BRIEF

This Trade-In offer provides a path for you to Trade In your eligible Keysight, or R&S signal generator and receive a credit up to 60% towards the purchase of the new SG6311A signal generator.

The SG6311A offers industry-leading phase noise and broadband noise performance, delivering an exceptionally clean signal ideal for LO/clock substitution, converter testing, and demanding metrology applications. It provides high output power with excellent harmonic performance up to 20 GHz—ideal for directly driving amplifiers or replacing them in complex, lossy systems. Its compact benchtop design delivers the highest signal generator density in its class, helping save valuable rack space without compromising on performance.

i Credit values are based on **typical configuration and average list price** and apply to models with **matching frequency range** (and port or channel count where applicable).

TRADE-IN MODEL	CREDIT UP TO

TERMS AND CONDITIONS

- Trade-In credits for this special promotion may be subject to change without notice, at Keysight's discretion.
- Credits ranges apply to Trade-In models with matching or similar frequency range and port / channel count.
- The Trade-In unit(s) must be in working condition without major esthetic and physical damages to receive the full credit.
- Credits apply to the new Keysight product and hardware options included in the offer; not to Keysight software or hardware items bought with the same order but with a separate model number.
- Credit values are approximate and may vary by currency and country, for one new and one Trade-In unit, and may change any time without prior notice.
- The Trade-In credit and purchase agreement (PA) discounts may be combined.
