

XA5 SA6210A SIGNAL ANALYZER

DEAL IN BRIEF

Trade in your eligible signal analyzer and receive a credit up to 36% toward your new SA6210A signal analyzer. The XA5 delivers wideband demodulation across the full 2 GHz bandwidth, enabling industry-leading dynamic range, and EVM. Innovative architecture enables significant improvement in measurement speed for swept and spurious measurements and dual-channel measurement capabilities. A modern, keyless user interface enhances usability for complex measurements.

i Credit values are based on *typical configuration and average list price* and apply to models with *matching frequency range* (and port or channel count where applicable).

TERMS AND CONDITIONS

- Trade-In credits for this special promotion may be subject to change without notice, at Keysight's discretion.
- Credits ranges apply to Trade-In models with matching or similar frequency range and port / channel count.
- The Trade-In unit(s) must be in working condition without major esthetic and physical damage to receive the full credit.
- Credits apply to the new Keysight product and hardware options included in the offer; not to Keysight software or hardware items bought with the same order but with a separate model number.
- Credit values are approximate and may vary by currency and country, for one new and one Trade-In unit, and may change any time without prior notice.
- The Trade-In credit and purchase agreement (PA) discounts may be combinable.
